Eco Friendly Air Solution

Destroys 99.99% of viruses
Proven to eliminate up to 99.99% of airborne viruses and bacteria, such as HCoV (coronavirus), H1N1, E.Coli, EV71 and more.

Uses 30% less energy
Our air solutions are eco-friendly, designed to consume less energy and reduce your energy costs. No harmful byproducts.

Removes bacteria, HVOCs
Our air sterilisers prevent mould and remove harmful organic particles and pollutants. Reduces odour safely and effectively.

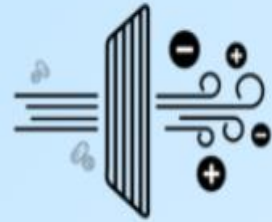

Powered by Cold Plasma

- Contains plasma conversion tube which uses specific voltage to convert the electrons in the air into charged ions.
- Charged ions breaks down the protein and molecular structure of all airborne viruses and pollutants.
- Sterilizes bacteria-filled environments easily by inactivating and preventing reproduction.
 - Reduces unpleasant smell

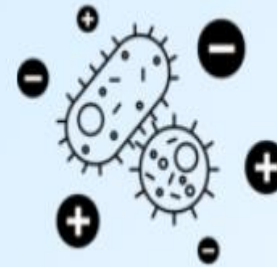

How Cold Plasma Works

Unfiltered air which goes through our Cold Plasma Ionisers produce both positive and negative ions.

The air around us can be filled with bacteria, viruses, mould, dust, dander and VOCs- especially indoor air, which is usually 2-5 times worse than open air.

The positive ions merge with the viruses and bacteria in the air to deactivate and destroy it, completely purifying the air around the area.

Portable Air Sterilizer

Environmentally friendly.
Eliminates 99.99% of viruses.
Stimulates natural, mountain-like air
Lightweight and portable.
Easy touch switch.
Long service life with low maintenance costs.
Ultra quiet.
360° purifying.
Covering 5- 15 meter square.
Rechargeable battery 2000mAH.
Power consumption 9W.
350g
70 x70 x 200mm

Uses:
Interiors
Car
Personal workplaces
Dinner tables
Restaurant tables
Shoe racks
Desks
Various small spaces

Special Disinfection Sterilizer

Environmentally friendly.
Eliminates 99.99% of viruses.
Stimulates natural, mountain-like air.
Removes dust and odour.
Long service life with low maintenance costs.
Ultra quiet.
360° purifying.
Covering 30 -50 meter square.
Lightweight
Wall mounted
Power consumption 7W.
1.4kgg
195 x 100 x 60mm

Uses:

Commercial indoor space
Residential indoor space
Personal workplaces
Small rooms
Elevators
Office Pantry
Small business spaces
Hotel rooms

Deodorizing Air Sterilizer

Environmentally friendly.
Eliminates 99.99% of viruses.
Stimulates natural, mountain-like air.
Removes dust and odour.
Long service life with low maintenance costs.
Ultra quiet.
360° purifying.
Covering 5- 15 meter square.
Lightweight
Wall mounted
Power consumption 7W.
1.4kg
180 x 240 x 100mm

Uses:

Commercial indoor space
Residential indoor space
Bathrooms
Medium sized rooms
Meeting area
Cafes
Clinics
Office
Treatment room
Hotel rooms

Portable Room Air Sterilizer

Environmentally friendly.
Eliminates 99.99% of viruses.
Stimulates natural, mountain-like air.
Removes dust and odour.
Long service life with low maintenance costs.
Ultra quiet.
360° purifying.
Covering 50- 100 meter square.
Power consumption 60W.
370 x 255 x 865mm
Portable with 2-3m power cord.

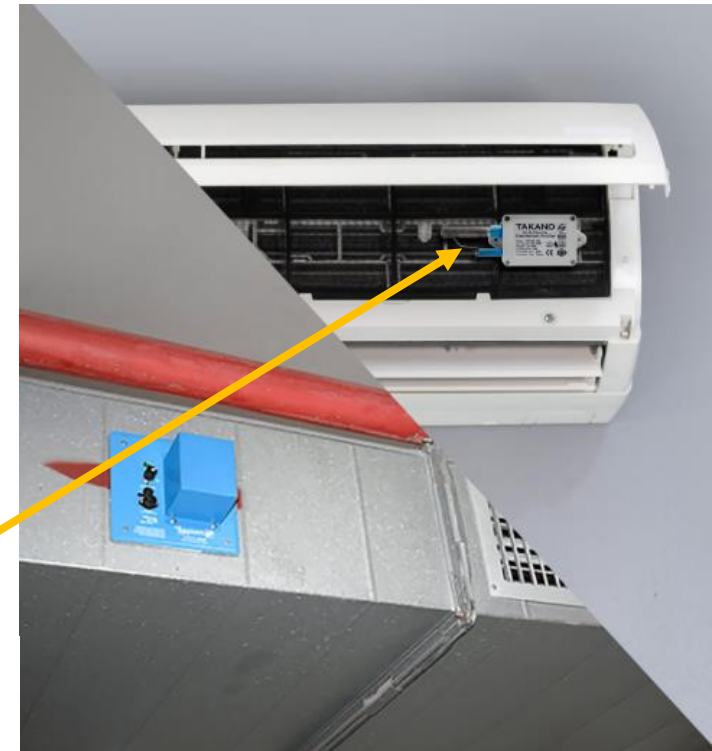

Uses:
Commercial indoor space
Residential indoor space
Large sized rooms
Meeting room
Restaurants
Wards
Clinics
Treatment room
Entrance lobbies

Cold Plasma Ionizer

Environmentally friendly.
Eliminates 99.99% of viruses.
Can be installed into the existing air-conditioner
Stimulates natural, mountain-like air.
Removes dust and odour.
Long service life with low maintenance costs.
Various series to accommodate various
size of space.
Low power consumption.

Air Conditioner Powered by Cold Plasma

Using Japan Poka-Yoke philosophy.

Eliminates 99.99% of viruses.

Environmental friendly.

Zero Ozone Depleting Potential.

Low Global Warming Potential.

Gold coated evaporator.

Eliminates 99.99% of viruses.

Stimulates natural, mountain-like air.

Removes dust and odour.

Has auto-cleaning function and easy cleaning design.

Ultra quiet

3D Air Flow with horizontal and vertical adjustment.

Certification

CE certified

Certified by trusted labs

- Removes HCoV (Human Coronavirus)
 - Removes H1N1
 - Removes E Coli
- Removes pollutants
